You will need a clothing tape measure to create your chart for She Talkx Fabrik. Please record your measurements in **INCHES** below. The Diagram will guide you on how to do this correctly.

When you have completed your measurement chart, return to Gail Birks at shetalkxfabrik@gmail.com.

4.

CROTCH:

Place the tape measure (starting at 0) on waistline string center front, then continue between the legs (keeping tape snug against the body) until the tape measure reaches the waistline string at center back. Read the measurement where the tape measure crosses the string in back. Divide this measurement in half. Subtract 2" from the front half. Add 2" to the back half.

For example, if the full measurement is 30", you should allow 13" for the front inseam crotch and 17" for the back inseam crotch, etc.

Description	Measurement
Neck: _____	Upper Arm: Left - _____ Right - _____
Bust: _____ (around back)	Arm Length: Left - _____ Right - _____
Waist: _____	Wrist: Left - _____ Right - _____
Hips: _____	Back Length: _____ (lower neck to waist line)
Thigh: left - _____ right - _____	Rise (Crotch): Front: _____ Back: _____ See illustration
Waist to knee: _____	Height: _____
Waist to Calf: _____	Head to toe Picture (required)
Waist to Ankle: Left: _____ Right: _____	Garment Length: (please indicate) Above knee: _____ "Capri" length: _____ Ankle : _____
