

## **No Limits**

### **Blog #20**

For a time in my life I was a member of a church that awakened my spiritual awareness and helped me to further understand something I already knew about myself. That I did not believe my boundaries to be any smaller than the next person whether they be man or woman.

I also learned about my spiritual gifts which we all have in us. Mine are FAITH, WISDOM, and ADMINISTRATION. Wow!!! What a brain explosion. Surely explained why I like order and have strong beliefs.

Rev. Dr. Michael Beckwith, a renowned visionary said, "... We are unlimited beings...".

As a woman in the seat of leadership, I accept this challenge. What can you say behind that statement?
